SUBJECT	Radio Station in Bratislava-Koliba	DATE DISTR.	26 September 1955
		NO. OF PAGES	2
DATE OF INFO.		REQUIREMENT NO.	RD 25X1
PLACE ACQUIRED		REFERENCES	
DATE ACQUIRED		This is UNEVALUATED Information	

SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

1. A radio station is located on Koliba Hill in the northern part of Bratislava, about 200 meters north of the crossroads of Svermova Cesta and Kamzikov Vrch. About 300 meters farther northeast are the new Bratislava film studios. 25X1
2. The area forms a square of approximately 200 x 200 meters and is surrounded by a wire fence with several rows of barbed wire on top. In all four corners inside the site there are guard towers about five meters high with glass cabins and searchlights. In the middle of the site opposite the entrance there is a concrete building (15 x 5 meters) with a flat roof and several windows. A similar building is located in the eastern part of the site. In the western and northern sectors there are several wooden huts.
3. The aerial is located in the center of the site and consists of a steel mast approximately 40-50 meters high on which a circular aerial about 25 meters in diameter is mounted. The aerial has six rings from which wires lead to the top of the mast and to the ground. On the top of the mast and on the rings there are two or three red warning lights.
4. The site is heavily guarded by members of VS (Vnitřní Stráž - Interior Guard) with one guard at the entrance and one in each tower. About 15 men were observed working on an electric overhead cable leading to the site from the northeast and on leveling the ground inside the enclosure.
5. All the buildings and other installations appear new and it cannot be determined by outside observation whether the station is already in operation.
